

Environmental, Health, Safety and Security Policy Statement

Buffalo Fuel Corp. (BFC) is committed to safe, reliable and secure transportation of our customer's products and to being responsible stewards of the environment. We continually strive to ensure the safety of our employees, drivers and the community in which we operate. Our Responsible Care® management system is integral to how we conduct our business and provides the framework to support our health, safety and environmental goals, and facilitates our commitment to meet or surpass applicable legal and other health, safety and environmental requirements to which we subscribe.

Our executive staff will provide visible leadership and proactively guide our Responsible Care® compliance efforts. Our commitment is reflected in the following:

- We will continually improve EHSS performance through dedicated leadership, involvement and accountability of our employees.
- We will maintain open communication with our stakeholders regarding our EHSS performance.
- We will conduct business ethically and in accordance with the Guiding Principles of Responsible Care®.

Sam Santarosa, President
Buffalo Fuel Corp.
Effective: January 4, 2016
